## Vocal Audition Process

The audition process is fairly straightforward and simple. We have three steps that make up this process. Not everyone will take part in all three steps.

In the first step you will sing a song or two of your choosing. Some people will want to sing two songs if they have a fast or slow song and would like for us to hear their ability to sing each type. It is not required to sing two songs. We will leave that up to you. You may use whatever type of accompaniment that you choose. You may use a CD background track, play an instrument or arrange to have someone accompany you. We will let you know the same day if you passed the first step and we will ask you to continue on to step two.

As part of step two we will have you pick up a CD of songs that we select and give you a few days to listen and sing with the CD. We will then have you come and sing with a group of current praise team members to see if you can hold your part when singing in a group. We are also listening to see how well you blend with a vocal group. If you pass this part of the process you will move on to step three.

Step three may be the last step but it is the most important step in what we do. This step is an interview with David and Ravona from the Worship Arts Ministry. Up to this point we have been evaluating your talent, now we want to talk to you about your heart. We will schedule a time for you to come to the office and spend some time with us to just talk about your life and your heart for this ministry.

If you have any questions please contact Ravona Lloyd at [Ravona@stonegatefellowship.com](mailto:Ravona@stonegatefellowship.com)

Thank you,

David McReynolds  
Worship Pastor

Ravona Lloyd  
Worship Arts Assistant
